

THE ROCKS CRY OUT

FOSSIL CONVENTION
TO THE ISLE OF DINOSAURS!

29TH MARCH -
2ND APRIL 2027

CONVENTION BROCHURE

THE ISLE OF WIGHT

The Isle of Wight provides the perfect opportunity for a fossil convention. Geologically speaking, the island is incredibly diverse, with Ice Age remains and fossils in the north, a band of chalk through the middle, and the famed 'Dinosaur Coast' in the south. The Island is the sixth-best location globally for diversity of dinosaur fossils, and the most important location in Europe - right on our doorstep! The Isle of Wight allows us to investigate the evidence for a worldwide flood in one location, with fossil flood evidence from dinosaurs, footprints, log jams, and crocodiles, to trees, seashells, and even hazelnuts - known as 'Noah's Nuts!' The southern latitude of the Isle also helps with the weather - the island is 2% warmer than the rest of the UK, with over 500 hours more sunshine!

- 5-night convention to the Isle of Wight, fully catered, and offering a variety of accommodation options.
- Held at the Westbrook Centre, Ryde.
- Daily field trips, Bible studies, workshops and evening seminars from world experts in creation science and apologetics.
- Hosted by Creation Research UK, in partnership with Answers in Genesis UK/Europe.
- Dig and keep your own fossils from one of the best locations in the British Isles.
- Enjoy a week of fossil hunting, fellowship, worship, learning and inspiring presentations.
- Get hands-on with the real evidence that the Bible is true from the very beginning.
- Learn how to prep and preserve your fossils and how they tie into a Biblical worldview.
- Enjoy fellowship with other believers on this family-friendly, one of a kind event!
- **An opportunity not to be missed!**

WESTBROOK CONVENTION CENTRE

The main accommodation option is dorm-style rooms in the Centre, offering beds, shared bathrooms, and drink facilities. Families can be roomed together, and there are sharing options as well. There are camping pitches available, as well as limited spaces for caravans/motorhomes. Campers have dedicated bathroom facilities, as well as access to the whole Centre. Accommodation options are offered on a first-come first-served basis - visit our website to see full details, or contact us to discuss options. All tickets include full catering, from dinner on the day of arrival, to a packed lunch on the day we leave. Buffet lunch options will be provided in the morning, so packed lunches can be taken on the field trips. There are heavily discounted return ferry tickets available to purchase when booking for the convention. The site also offers free recreation facilities, including football/basketball/frisbee golf/volleyball pitches, low ropes & climbing wall, and an outdoor giant chess set. For more information, contact info@creationresearchuk.com.

THE ROCKS CRY OUT

Fossil Pterosaur Jaw
from Brighstone Bay

Yaverland Beach

Creation Research is a world leader in creation-based fossil research and field trips. This convention is unique, with a focus on fossil hunting, research and field trips throughout the famed Dinosaur Isle. Collect your own fossils, learn how to critically think about the rocks, and discover the incredible evidence of Jesus Christ as Creator, Saviour, Sustainer, and Judge. Be guided by Joseph Hubbard and the CR Team on four fossil hunting field trips across the Island! Each location provides a unique opportunity to look for evidence that the Bible is true from the very beginning! Field Trip locations include Brook Bay, Yaverland, Bouldnor & Hamstead, Brading Down and the Needles. Each attendee will receive a welcome pack and handbook for the convention, which includes notes and guides to help them make the most out of each field trip, workshop, and seminar session.

WORKSHOPS & RESEARCH

In-situ Dinosaur bone,
Compton Bay

Each day will include opportunities to work through your fossil finds, prepare and preserve them using professional tools, and think through their significance in relation to a Biblical worldview, and how they can be used for education and evangelism - real museum work! There will also be men's and ladies' meetings during the convention, a time to learn, fellowship, encourage, and pray.

The Rocks Cry Out Convention will provide a full program of activities, designed to inform, educate, inspire, and help you to give an answer for the hope that is within you! Each day will start out with group Bible devotions. Afterwards, there will be an overview session of the day – what to expect, where we'll be going, and what we'll be looking at. Every evening there will be 2 seminars, featuring speakers from Creation Research and Answers in Genesis, dealing with Biblical and scientific topics. Afterwards, there will be an opportunity to ask questions to the speakers. Seminar topics will include Noah's Flood, design, history, dinosaur soft tissue research, Tower of Babel, and many more.
